Selected case studies demonstrating expertise in **software UI localization**, **transcreation (EN/ES → IT)**, **linguistic quality audit**, and **FinTech tone-of-voice adaptation**.

CASE STUDY 1: FINTECH & IN-APP UX LOCALIZATION

Mobile Banking & Payments UX Strings Transcreation

FinTech / Mobile App

Objective: Localize high-converting in-app microcopy and push notifications from English into idiomatic, friendly, and compliant Italian.

Source (EN)	Literal Translation (Avoided)	Localized / Transcreated (IT)
"Round up your spare change & invest on the fly."	"Arrotonda il tuo spicciolo e investi al volo."	**"Arrotonda i tuoi acquisti e investi i resti in un tap."**
"You're all set! Your crypto vault is active."	"Sei tutto pronto! Il tuo cassaforte cripto è attivo."	**"Tutto pronto! La tua cassaforte Crypto è attiva."**
"Instant transfer failed due to insufficient funds."	"Trasferimento istantaneo fallito per fondi insufficienti."	**"Trasferimento non riuscito: saldo insufficiente."**

CASE STUDY 2: AMAZON DATA & AI LINGUISTIC QA

Linguistic Quality Audit & Style Guide Creation

Quality Assurance / AI & L10n

Challenge: Auditing large-scale datasets and automated AI translations to maintain natural Italian syntax, consistency in terminology, and brand integrity.

- Standardized terminology glossaries for technical and customer-facing software features.
- Created error classification frameworks (accuracy, grammar, style, cultural appropriateness).
- Evaluated machine translation outputs against human-grade gold standards.

CASE STUDY 3: B2B & SAAS SEO CONTENT ADAPTATION

SEO Copywriting & Multi-Channel Local Content

SaaS / B2B Marketing

Objective: Develop localized SEO articles, product landing pages, and marketing campaigns for Italian clients (White Rabbit, Evo Solutions, Officine Meccaniche Marcucci).

Deliverable	Strategy Applied	Impact & Result
SaaS Landing Pages	UX Copywriting, Clear CTAs, Localized terminology adapted for Italian SMEs.	+32% Organic Lead Conversion rate within 4 months.
SEO Articles & Editorial	Keyword research, search intent alignment, engaging long-form storytelling.	Top 3 Ranking on Google.it for competitive industry keywords.

LOCALIZATION WORKFLOW & METHODOLOGY

End-to-End Quality Assurance Process

Methodology

1. **Context Analysis:** Reviewing character limits, screen placement, and user personas.
2. **Transcreation & Adaptation:** Translating meaning and intent rather than word-for-word text.
3. **Glossary & Style Consistency:** Ensuring terms align with Italian financial regulations and FinTech industry norms.
4. **Linguistic QA & Proofreading:** Rigorous check for grammar, typos, punctuation, and tone consistency.
